Dear Michela

Thank you for the application for Data Protection Registration.

In the approval email that we have approved it on the basis of an individual adequacy assessment. This is on the basis of the low risk nature of the information, the fact the Chilean government are providing this to the PI and it is going back to Chile for research funded by the Chilean government, that the security measures to be taken are appropriate and the agreement with the data collection agency we think this is adequate. With this in mind, I am pleased to confirm that this project is covered by the UCL Data Protection Registration, reference No Z6364106/2017/06/101 social research

It is rarely necessary to store electronic personal data on portable devices such as laptops, USB flash drives, portable hard drives, CDs, DVDs, or any computer not owned by UCL. Similarly, manual personal data should not be regularly removed from UCL premises. In the case of electronic data, to minimise the risk of loss or disclosure, a secure remote connection to UCL should be used wherever possible.

Downloading personal data on to portable devices or taking manual personal data off-site must be authorised in writing by the Data Owner, who must explain and justify the operational need in relation to the volume and sensitivity of the data. The data must be strongly encrypted. Users should only store the data necessary for their immediate needs and should remove the data as soon as possible. To avoid loss of encrypted data, or in case of failure of the encryption software, an unencrypted copy of the data must be held in a secure environment. The Information Security Group guidance on [encryption](#) should be followed:

Manual personal data and portable electronic devices should be stored in locked units, and they should not be left on desks overnight or in view of third parties.

In order to comply with the fifth data protection principle personal data should be [securely destroyed](#) when no longer required, with consideration for the format of the data. The Information Security Group guidance should be followed.

Personal data must not be disclosed unlawfully to any third party. Transfers of personal data to third parties must be authorised in writing by the data owner and protected by adequate contractual provisions or data processor agreements, agree with UCL's notification and must use safe transport mechanisms.

There are cases where anonymised data needs to be treated as confidential, so please ensure that you comply with any further restrictions contained within contracts or agreements relating to the data.

If not already done so, please provide copies of any information sheets and consent forms that you are using.

When all essential documents are ready to archive, contact the UCL Records Office by email records.office@ucl.ac.uk to arrange ongoing secure storage of your research records unless you have made specific alternative arrangements with your department, or funder.

Regards,

Spenser Crouch

Subject: data protection registration form

Dear data protection officer,

I have discussed my project with Alex earlier today.

Please find my registration form attached. I will send an additional legal document by tomorrow.

Please let me know if there's anything else I need to do at this stage.

Kind regards,
Michela

Michela M. Tincani
